Getting Started with . . .
Course Availability

You must make your course available before students enrolled in the course will be able to view or access the course and its content.

How to Make a Course Available

1. Turn **Edit Mode** ON.

2. On the Control Panel, expand the **Customization** section, and select **Properties**.

3. Under the third section, **Set Availability**, click **Yes** to make the course available to students.

4. Optionally, under the fourth section, **Set Course Duration**, choose one of the following options:
   - **Continuous** (default) to leave the course available without a specified start or end date
   - **Select Dates** to choose a Start and/or End Date
   - **Days from the Date of Enrollment** to specify a specific length of time students have to access the course after enrolling. This is the best option for self-paced courses.

5. Click **Submit**.
If you no longer want students to be able to access your course, you can make it unavailable. The course will not be deleted, but students will be unable to access it.

How to Make a Course Unavailable

1. Turn Edit Mode ON.
3. Under the third section, Set Availability, click No to make the course unavailable to users.
4. Click Submit.

If a course is unavailable, access is determined by course role. Instructors, Course Builders, Teaching Assistants, and Graders can see an access unavailable Courses from My Courses and the Course List, but they are marked as unavailable. Students cannot access unavailable courses regardless of the Course Duration. Unavailable Courses do not appear in the Course Catalog.
